

EXECUTIVE MANAGEMENT COURSE IN SHIP SUPERINTENDENCY

COURSE OBJECTIVES

- To facilitate and expedite the orientation and induction of sea-faring officers at the management level into superintendent's role ashore and
- To enable serving ship superintendents and managers to update their knowledge and understanding of:
 - Regulatory framework – including upcoming regulations
 - Technical functions and
 - Commercial aspects of ship management.

On successful completion of the course, the participants will enhance their decision-making and problem-solving abilities in respect of day-to-day functions in Ship Superintendency.

ABOUT THE COURSE

Effective management of ship operations calls for a firm grasp of a wide range of disciplines, coupled with an ability to take informed decisions, integrating shipboard and shore-based functions in a dynamic and demanding business environment. All ship management decisions are taken and implemented across three distinct areas:

- Regulatory
- Technical and
- Commercial

This course is offered as a modular programme covering above three areas. The delivery of the programme is spread over five independent, stand-alone modules that are offered separately. A participant can complete one module at a time, according to his/her choice and convenience:

- Ship Surveys & Certificates
- Commercial aspects of shipping
- Hull inspection (Bulk Carriers & Oil Tankers)
- Planning, preparation & managing dry-docking and major repairs
- Workshop on Techno-commercial issues in ship operations

Certification will be module-based.

PARTICIPANTS

- Serving Superintendents and Technical/ Commercial Managers working with shipping and ship management companies, who wish to refresh and update their knowledge and understanding.
 - Master Mariners and Chief Engineers intending to serve as Superintendents in ship-owning/ ship-management companies.
 - Management-level sea-faring officers wanting to acquire the perspective of the owner/ ship-manager.
-

DURATION

Five independent modules, one day each.
