THREE DAY APPROVED HAZMAT INVENTORY EXPERT TRAINING COURSE

COURSE OBJECTIVES
On completion of the course, the participants will:
Enhance their awareness in Assessment of Hazardous Material on board the vessel. This is a very good opportunity for the personnel who want to pursue a career in preparation of the inventory of HAZMAT. We are introducing this course in 3 days covering part 1 & 2

ABOUT THE COURSE
The vessels need to transport cargo and navigate globally. There has been an IMO adopted Hong Kong Convention which requires inventory of the HAZMAT on board the vessel after it comes in force as well as EU requires such inventory on board when the vessel visits EU ports after 1st Sec 2020.

PARTICIPANTS
All Those persons who wants to peruse a carrier in preparation of the HAZMAT inventory in accordance with the MEPC Resolution 269/68 and serve the owners to have a proper inventory of Hazardous material on board the vessel duly approved by the RO

DURATION
Day 1 – Requirements of the Hazmat inventory and method
Day 2 – Requirements and implementation of the Inventory
Day 3 – Practical On board virtual tour to understand how to take inventory and make a Plan / inventory approval

MODE OF TRAINING
Online
