

Technical Circular

No.: 025/2021

Date: 11th May 2021

Subject: Liberia - Acceptance and Registration of Iridium GMDSS Terminals on Liberian Flagged Vessels.

1. The Liberian Administration has accepted Iridium as a recognized Maritime Mobile Satellite Service (MMSS) for providing GMDSS services and the dissemination of MSI. Accordingly, approved Iridium GMDSS terminals may be installed on Liberian flagged vessels for compliance with the applicable requirements of SOLAS Chapter IV regarding GMDSS and MSI.
2. In this regard, the Liberian Marine Advisory No. 05 of 2021 provides following guidance on the activation and registration of Iridium terminals on Liberian flagged vessels;

A. Activation and Registration of Iridium Terminals:

- a. Iridium has designated several communication companies around the world as their designated GMDSS service providers. In turn the Liberian Administration has recognized some of the Iridium GMDSS service providers for activation of Iridium terminals on Liberia flagged vessels on behalf of the Administration.
- b. Iridium GMDSS terminals installed on Liberian flagged vessels must be activated, and when appropriate deactivated, by one of the Iridium GMDSS service providers recognized by the Administration. A list of the Iridium GMDSS service providers recognized by the Administration can be found at (<https://www.liscr.com/iridium-services>).
- c. Any Iridium terminal installed on board a Liberian flag ship must be reported to the Administration in accordance with international telecommunication rules (ITU) for amendment of the vessel's radio station license, for verification of compliance with SOLAS Chapter IV requirements, and inclusion in the Administration's communication database.
- d. To this end the recognized Iridium GMDSS service provider will forward to the Administration the Iridium GMDSS terminal information needed for registration of the terminal in the Administration's communication database, for amendment of the vessel's radio station license to indicate Iridium as the ship earth station and GMDSS terminal(s), for inclusion of the terminal information in the ITU Report, and for updating the COSPAS-SARSAT database, as appropriate.
- e. The Administration will issue the vessel an amended Ship Radio Station License as appropriate to indicate the activation of Iridium GMDSS terminals.

. This Technical Circular and the material contained in it is provided only for the purpose of supplying current information to the reader and not as an advice to be relied upon by any person.

. While we have taken utmost care to be as factual as possible, readers/ users are advised to verify the exact text and content of the Regulation from the original source/ issuing Authority.

B. Operations in Sea Area 4:

- a. For vessels operating in Sea Area 4, the Liberian Administration will accept the activation of two Iridium GMDSS terminals on board the vessel as meeting the requirement for duplication of services provided a MF/HF installation with DSC and NBDP is used as the main station.
3. Shipowners and operators are advised to be guided by the aforementioned guidance for activating Iridium GMDSS terminals on Liberian flagged vessels.
 4. Further, the shipowners and operators should specifically note the following:
 - Iridium GMDSS terminals on Liberian flagged ships must be activated by one of the Iridium GMDSS service providers recognized by the Administration. The recognized Iridium GMDSS providers can be found at <https://www.liscr.com/iridium-services>.
 - Iridium GMDSS terminals installed on Liberian flagged vessels must be reported to the Administration.

Marine Advisory: 05/2021

SUBJECT: Acceptance and Registration of Iridium GMDSS Terminals on Liberian Flagged Vessels

Dear Shipowner/Operator/Master/Inspectors/Recognized Organizations:

The purpose of this Marine Advisory is to inform shipowners and operators of the Liberian Administration's policy regarding the acceptance and registration of Iridium terminals as GMDSS units on Liberian flagged ships.

Background

In May 2018, IMO Maritime Safety Committee at its ninety-ninth session, adopted resolution MSC.451(99) on "Statement of recognition of the maritime mobile satellite services provided by Iridium Satellite LLC, including Iridium's enhanced group calling service". MSC.451(99) officially recognized Iridium to provide GMDSS services. MSC.451(99) also invited International Mobile Satellite Organization (IMSO) to monitor the implementation of the recognized services by Iridium and report to MSC when a Public Services Agreement with Iridium had been concluded and the Letter of Compliance had been issued. Subsequently in December 2019, IMSO issued a Letter of Compliance to Iridium, certifying Iridium as provider of GMDSS services globally, including the dissemination of maritime safety information (MSI).

Liberia, as a sovereign Flag State, has the responsibility to ensure its registered vessels' compliance to accepted international standards, including compliance with maritime communication requirements, and has the right and responsibility to monitor the activation and deactivation of satellite communication equipment and services on Liberian flagged vessels.

The Liberian Administration has accepted Iridium as a recognized Maritime Mobile Satellite Service (MMSS) for providing GMDSS services and the dissemination of MSI. Therefore, approved Iridium GMDSS terminals may be installed on Liberian flagged vessels for compliance with the applicable requirements of SOLAS Chapter IV regarding GMDSS and MSI.

This Advisory provides guidance on the activation and registration of Iridium terminals on Liberian flagged vessels.

Activation and Registration of Iridium Terminals

Iridium has designated several communication companies around the world as their designated GMDSS service providers. In turn the Liberian Administration has recognized some of the Iridium GMDSS service providers for activation of Iridium terminals on Liberia flagged vessels on behalf of the Administration.

Iridium GMDSS terminals installed on Liberian flagged vessels must be activated, and when appropriate deactivated, by one of the Iridium GMDSS service providers recognized by the Administration. A list of

the Iridium GMDSS service providers recognized by the Administration can be found at (<https://www.liscr.com/iridium-services>).

Any Iridium terminal installed on board a Liberian flag ship must be reported to the Administration in accordance with international telecommunication rules (ITU) for amendment of the vessel's radio station license, for verification of compliance with SOLAS Chapter IV requirements, and inclusion in the Administration's communication database.

To this end the recognized Iridium GMDSS service provider will forward to the Administration the Iridium GMDSS terminal information needed for registration of the terminal in the Administration's communication database, for amendment of the vessel's radio station license to indicate Iridium as the ship earth station and GMDSS terminal(s), for inclusion of the terminal information in the ITU Report, and for updating the COSPAS-SARSAT database, as appropriate.

The Administration will issue the vessel an amended Ship Radio Station License as appropriate to indicate the activation of Iridium GMDSS terminals.

Operations in Sea Area 4

For vessels operating in Sea Area 4, the Liberian Administration will accept the activation of two Iridium GMDSS terminals on board the vessel as meeting the requirement for duplication of services provided a MF/HF installation with DSC and NBDP is used as the main station.

Action

Shipowners and operators shall be guided by the aforementioned guidance for activating Iridium GMDSS terminals on Liberian flag vessels. The shipowners and operators should specifically note the following:

1. Iridium GMDSS terminals on Liberian flagged ships must be activated by one of the Iridium GMDSS service providers recognized by the Administration. The recognized Iridium GMDSS providers can be found at <https://www.liscr.com/iridium-services>.
2. Iridium GMDSS terminals installed on Liberian flagged vessels must be reported to the Administration.

For questions regarding this note please contact this Administration's Vessel Certification Department at email: IridiumServices@liscr.com or via telephone number +1 703 790 3434.
