FLAG ANNUAL SAFETY INSPECTION FOR VESSELS WITH PRIORITY 1 IN PARIS MOU INSPECTION AND SELECTION SCHEME THAT ARRIVE AT ANY PORT IN ITALY

No: **MMN-13/2021**

1. As you are aware the Paris MoU implemented an initiative to identify high-quality ships and flags and provide incentives to encourage quality operations. This initiative is called White List, and through this initiative, high-quality vessels should be recognized and rewarded for their commitment to safety and quality.
2. The Paris MoU Inspection and Selection Scheme is based on a ship's Risk Profile, the Inspection and Selection Scheme determines the scope, frequency, and priority of inspections. Periodic Inspections are carried out at intervals determined by the ship risk profile.

Ships become due for periodic inspection in the following time windows:

- For HRS – between 5-6 months after the last inspection in the Paris MoU region.
- For SRS – between 10-12 months after the last inspection in the Paris MoU region.
- For LRS – between 24-36 months after the last inspection in the Paris MoU region.

The selection scheme is divided into two priorities:

- Priority I: ships must be inspected because either the time window has closed or there is an overriding factor.
- Priority II: ships may be inspected because they are within the time window or the port State considers an unexpected factor warrants an inspection.
