7	ner 	Personnel onboard meet the requirements of MSMC				
8] =	Work and rest hours records updated as required				
9) he	CSO and DPA contact details are available				
10	Š	Continuous Synopsis Record (CSR) updated				
11		Seafarers Employment Agreements (SEA) valid and signed by all interested parties				
12		ISPS Security level set correctly as per Flag State and Port Authorities requirement				
13		Ballast water records are up to date and ballast plan is available				
14		Safety (fire, abandon, enclosed space, etc.) and Security				
15		Manuals (e.g. stability, SOPEP, damage control plan, etc.) available in latest version				

No.	Area	Items to check and verify before port arrival	YES	NO	COMMENTS
16		Log books of firefighting equipment and Lifesaving appliances (LSA) is up to date			
17		Fire detectors, smoke detectors and heat detectors (with no temporary covers), and the crew must be familiarized with the procedures and equipment for test			
18		Fire dampers, Mechanical Ventilations (working and in good condition)			
19	Fire pr	Fixed fire extinguishing system (CO2 system connected and fully operational with no clogged or corroded nozzles)			
20	Fire protection system check	Fire doors not permanently locked, self-closing device in good order (gas tight, no worn packing, etc.)			
21		Fire extinguishers (Adequate cylinder pressure, also those located in machine room spaces, service certificate valid)			
22	check	Fire main system in good condition (hoses and isolation valve)			
23	^	Fire pump and its pipes in good order (Good pressure on deck and remote means of operation working correctly)			
24		Quick closing valves in good order (Remote control devices)			
25		Muster lists and Fire Plans (updated and posted)			
26		All personnel familiar with signals, muster station and duties in case of emergencies			
27		Emergency escapes free of obstructions			
28	L	Operational readiness of lifesaving appliances (engines, davits and falls ready to use)			
29	Life Savin	Rescue boats and lifeboats are in good condition (Lifeboat windows have good visibility, steering, lights, compass, propeller protection, etc.)			
30	g Appli	Lifejackets and immersion suits are in good condition and available for the total number of crewmembers on board			
31	ring Appliances ch	Inflatable life rafts (hydraulic release unit, embarkation ladder, required lifeboat inventory as required, current service period, no expired equipment, etc.)			
32	check	Launching and recovery arrangements for survival craft in good condition (NOT Wasted/Holed davit or defective winch brake)			
33	On	Gangway ladder and moorings (working and arranged properly)			
34	ı de	ISPS Access control procedures duly complied			
35	УĊК	Outside decks (clean and well illuminated)			
36	۷e	Pilot transfer arrangements			
37	On deck verification	Garbage record book up to date and all areas well maintained			
38	on	Accommodations clean, in order and no door hooks in place			

No.	Area	Items to check and verify before port arrival	YES	ОИ	COMMENTS
39		Ventilators, air pipes, casings in good condition			
40	0	Weather tight doors are in good condition and close properly			
41	n d	Hatch covers in good condition			
42	leck ve	Emergency source of power - Emergency Generator (able to start automatically and manually)			
43	On deck verification	Emergency lighting (batteries and switches in good condition)			
44	ion	International shore connection and standard discharge connection in good condition			
45		General lighting in good condition (no burned bulbs)			
46		Nautical Publications (latest editions on board)			
47		Lights, shapes and signals working properly and available			
48		Radio equipment, GMDSS, VHF/DSC, MF/HF, EPIRB, AIS, VDR, Radar Transponder, Echo sounder, Speed log, NAVTEX, MMSI number, etc. in good working order			
49	Bridge check	Voyage data recorder (VDR/S-VDR) and ship security alarm system (SSAS) operational, tested and not showing system errors			
50	e ch	LRIT working satisfactorily (conformance test on board)			
51	eck	Nautical charts and ECDIS updated (ECDIS was checked for last ENC updates, PPI cross checked in ECDIS, ECA entries positions cross checked, passage plan, etc.)			
52		Deck Logbook (duly updated and accurate, indicating the working language, entries for ECA (changeover), entries for sewage discharge, etc.)			
53		Oil Record Book (duly updated and accurate)			
54		Steering gear in good order			
55		Air pipes and ventilators in good order			
56		Cleanliness of machinery spaces			
57	Engine Room check	Oil water separator / oil filtering equipment (engine crew has to be able to test it). If PSCOs discover unapproved modifications to the oily water separator piping system, criminal prosecution of the vessel and its crew may result.			
58	Roo	Jacketed piping system for high pressure fuel lines			
59	JM.	Oil Content Meter (engine crew has to be able to test it)			
60	check	Avoid imprudent amount of bilge water, accumulation of oil, fuel leaks, oil soaked lagging in the engine room space			
61		Alarm system of bilge high level working well			
62		Oil mist detector alarm working well			
63		Sewage treatment plant (operative, blower working well, cleaning agents, etc.)			
64		Remotely operated shutoff valves (ROSOV)			

No.	Area	Items to check and verify before port arrival		YES	NO	COMMENTS
65	Engine Room		Inert Gas system operational			
66		anker	Overboard discharge monitoring and control equipment ODME working well			
67			Audio-visual alarms of high and high-high alarms			
68		/	Fixed gas detection system			
69		Sanitary faci	lities working well and clean			
70	Heating, ai		conditioning and ventilation in good order			
71		Hospital is clean and in order, medical chest is complete				
72	_	MLC Insurance certificates are valid				
73	MLC	Personal protective equipment (PPE)				
74		Stores available for the intended voyage and well kept (temperature and food segregation)				
75	75 Seafarers Employment Agreements (SEA) comply with collective bargain agreement (if applicable)					
6	pendin	g, malfunction	nvites companies and Masters, to report Flag State ling or missing items which require additional verified e.g. authorization letter from the Flag State pla	fication;	in case y	ou require a technical

- reduce the likelihood of a Detention by the PSC.
- 7 This checklist must be sent 96 hours before the arrival to the below contact information. For voyages that last less than 96 hours, said document must be sent at least 24 hours before arrival in port.
