# IRS platform to boost efficiency

TNN | Mar 7, 2023, 08.21 AM IST

Visakhapatnam: Indian Register of Shipping (IRS) has selected DassaultSystèmes' 3DEXperience platform to drive digital transformation and boost efficiency. projects. The platform will enable IRS, an international ship classification society that offers certification and technical inspection services to the maritime industry, to implement data-driven decision making, concept design, engineering, integrated operations, and maintenance processes. This will significantly improve its operations management, resulting in prolonged vessel life, enhanced cost and time efficiency, and heightened safety and security within the shipping industry. tnn
