

Ensuring safe ships and clean seas

PROFILE

- Over 40 years of industry experience
- 800+ engineers across multiple engineering disciplines
- Member of International Association of Classification Societies
- Recognition from the European Union
- Recognized by 39 Maritime Administrations
- Ranked amongst top 10 Class Societies
- A Class by Choice

OUR VALUES

- Integrity,
- Impartiality,
- Innovation,
- Commitment to customer service,
- Professional development of employees,
- Respect for associates,
- Occupational health and safety of employees, and
- Responsibility towards environmental protection.

VISION & MISSION

Vision

To be the first choice of all existing and potential customers globally

Mission

To promote Quality, Occupational Health & Safety and protection of the Environment by making every effort to be a Safer, Smarter and Greener Organization

- **SAFER** – by promoting & driving a safety culture to prevent loss or harm to personnel, property and environment
- **SMARTER** – by using competent personnel to deliver our services and continually improving the reliability of our systems & processes through appropriate research & development, and
- **GREENER** – by sharing knowledge and taking measures to reduce environmental footprints to achieve sustainable development

QUALITY, OCCUPATIONAL HEALTH, SAFETY & ENVIRONMENT POLICY:

In pursuit of Customer Satisfaction, Quality of Services provided, Occupational Health & Safety of its employees and to positively influence the safety performance of the industry and protection of the Environment, IRS is committed to:

QUALITY POLICY:

- Providing excellence in quality of service Meeting stated and implied needs of customers and other stakeholders by complying with applicable Rules and Regulations,
- Regularly monitoring and reviewing the realization of Quality and Process Objectives, and
- Continually improving the effectiveness of its Quality Management System.
- Ensuring impartiality in all its services and avoiding conflict of interest.

OCCUPATIONAL HEALTH, SAFETY & ENVIRONMENT POLICY:

Providing and maintaining a safe and healthy workplace aimed at prevention of injury and ill-health to all employees,

Protection of the environment, including prevention of pollution of the Environment related to the processes and activities under its control and establishing a framework for defining, monitoring and reviewing Safety & Environmental policies, objectives, indicators and targets,

Creating awareness amongst employees and other stakeholders on adopting safe working practices,

Complying with applicable legal and other requirements, and

Continually improving systems by recognizing, developing, adopting and promoting best practices within the industry.

MARINE

Indian Register of Shipping (IRClass) is a leading ship classification Society and IACS member. At IRClass, we are committed to safer ships and cleaner seas for the advancement of marine industry and benefit of our environment.

Our vast pool of highly qualified surveyors and auditors, spread over the globe, ensure compliance with international conventions and codes at all times. It is our constant endeavour to support ship owners and other stakeholders in every possible way to achieve compliance in a sustainable manner.

With headquarters in India, our services are offered through 24 offices spread across the world in Middle East, Asia Pacific, North America and Europe.

Classification Service

IRClass has a proven and established record of being a reliable classification society. Our Classification Rules support review of structural integrity of various types of vessels including tankers, bulk carriers, passenger vessels, dredgers and gas carriers. Our Classification Services extend to

- Plan approval
- New Construction supervision on site
- Survey of ships in service
- Component Inspection
- Types and Works Approval

Additionally, we support our customers through

- Emergency Response Service
- Damage Surveys
- Specification Services

Statutory Services

IRClass is authorized by 39 Maritime Administrations to carry out statutory services and audits and issue Certificates in accordance with IMO Codes & Conventions, Flag Administration specific requirements and other

international non-mandatory codes to which they prescribe to.

List of IRClass Rules

- Seagoing Steel Ships
- Inland Waterways Ships
- Mobile Offshore Drilling Units
- High Speed & Light Crafts
- Naval Combatant and Non-combatant Ships
- Air Cushion Vehicles (Provisional)
- Pleasure Crafts
- Gas fuelled inland and coastal ships
- Single Point Mooring Systems
- Offshore Installations

Other Allied Services

1. Cyber Risk Management
2. Vessels Performance Monitoring
3. Fuel measurement towards CO2 Emissions under EU-MRV regulation and IMO Data Collection System
4. Statutory approval of equipment's on behalf of various administrations towards EC wheel marking as per marine equipment directives of EU.
5. Approval of plans, survey and certification of ships under Ballast Water Convention.

RESEARCH

Research & Development is the backbone of IRIclass

Areas of expertise in Research

- Hydrodynamics
- Structural Analysis
- Risk & Reliability
- Rule Development
- Offshore Oil and Gas

IRIclass is committed to doing meaningful research in technologies related to marine and industrial fields and allocates a substantial share of revenue to ensure an active and vibrant R&D program.

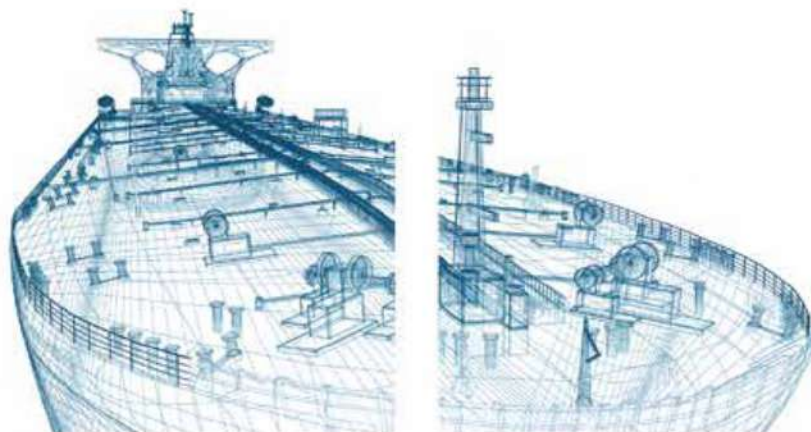

Our current interests in R&D include:

Hydrodynamics

- Estimation of ship motion and wave loads using linear / nonlinear potential flow methods
- Transportation analysis in realistic sea
- Estimation of loads for direct strength analysis
- Estimation of wave loads on large offshore structures
- Application of CFD for flow around ship hull, propellers & appendages
- Prediction of position keeping in realistic sea
- Ship Airwake and Plume Analysis
- ICCP Simulations

Structural Analysis

- Linear and Non-Linear Structural Strength Analysis
- Direct Strength Analysis
- Ultimate Strength of Hull Structure

- Vibration Analysis – Hull Girder and Local Structures
- Distortion & Locked-up Stresses
- Fatigue Strength Assessment
- Advanced Structural Analysis

Risk & Reliability

- FSA and GBS/SLA
- Accident Investigation and failure data analysis
- Structural Safety
- Noise Level Prediction and Mitigation – Both Airborne & Structure Borne
- Underwater Noise Prediction
- Fire simulation, Evacuation, Security system analysis
- Alternative design Evaluation
- High risk vessels – LNG carrier, FPSO, FSO etc.
- Energy Efficiency, Alternative Fuel, Emission control

Offshore Oil and Gas

- Mooring and Riser Analysis
- Fixed and Floating Offshore Structures
- Subsea Pipeline
- Life Extension and Integrity Management

For any inquiries please get in touch with us on

Phone: +91 22 30519400 / 71199400

Email : research@irclass.org

OFFSHORE

The ever-growing offshore infrastructure and services sector has always required a high degree of quality assurance that can mitigate risks for stakeholders and ensure long term business viability. IRClass has been supporting the offshore asset owners through its services since 1982.

IRClass is one of the most trusted names in quality inspections and certifications with a proven track record of certification of more than 20 platforms, 1000km of subsea pipelines and classification of close to 200 offshore vessels. Our Offshore Rules and Regulations ensure that your assets and businesses are operationally and environmentally safe at all times. We have expertise in design review of engineering analysis of complex offshore projects.

Our research on structures and hydrodynamics is backed by some of the most sophisticated and widely accepted software around the world. IRClass engineering experts can offer complete structural and hydrodynamic analysis of all kinds of structures, irrespective of their location. We are also able to support owners through supervision of complicated conversion projects such as well stimulation vessels, mobile offshore drilling units and floating production and storage units.

We have expertise in design review of engineering analysis of complex offshore projects.

Offshore Classification Services:

- Mobile Offshore Drilling Units
- Drillships
- Jack-up Barges
- Well Stimulation Vessels
- Diving Support Vessels
- Accommodation Barges
- Supply Vessels
- Anchor Handling Tugs
- FPSO
- Single Point Mooring

Conversion Projects:

Conversion of offshore vessels to specialised vessels like Well Stimulation Vessels, Diving Support Vessels, Oil Recovery Vessels and Mobile Offshore Production Units.

Inspection and Certification Services:

- Construction of Process and Well Head Platforms
- Fit for purpose certification of jacket platforms
- Revamping of platforms
- Recertification of platforms
- Jack up rigs
- Submarine pipelines and subsea cable laying
- Specification Services

Additional Services

- Fire safety audits
- Safety supervision during construction and commissioning
- Residual life assessment of structures
- Risk and Hazop analysis for offshore environment

Design review services

- Mooring analysis
- Tow stability analysis
- Calm buoy mooring for STS operations

Email : headops@irclass.org

DEFENCE

The Defence Division focuses on the requirements of the Defence and Paramilitary forces. This division is the single point of contact for all Defence agencies and Paramilitary forces for Classification, Certification and Consultancy Services. The division is supported by a large pool of multidisciplinary marine professionals with vast experience and a high level of expertise.

Customized Rules have been developed for:

- Naval Combatant and Non-Combatant vessels
- High Speed Vessels
- Coast Guard Vessels
- Hovercraft
- LCA's
- LCVPs
- RIBs and Auxiliary Vessels

Classification and Project Management Services for:

- New Building Defence Projects
- Marine Infrastructure Projects
- In-Classing of Existing Defence Vessels

Technical Analysis Covering a Broad Range of subjects including:

- Structural and Hydrodynamic Analysis
- Noise and Vibration Analysis
- Fire Safety
- Residual and Fatigue Life Estimation

Its worldwide presence enables IRS to provide prompt and efficient services covering material and product certification for a wide range of Defence requirements.

For any enquiries please get in touch with us on

Phone: +91-22-30519400 / 71199400

/ +91 11 30845600

Email: defence@irclass.org / k.dhawan@irclass.org

COASTAL AND INLAND VESSELS

Coastal and inland vessels serve the important task of connecting remote and interior parts of a country which are otherwise unreachable for the large ocean carriers. They are an efficient and cost effective mode of transport which contributes to reducing the overall cost as well as the carbon footprints of the value chain of transport. Maintaining quality and health of coastal and inland vessels is, therefore, of vital significance to all countries around the world. We, at IRClass, ensure that your fleet is up to the standard throughout its life cycle so as to serve you optimally for long periods.

Coastal and Inland vessels need application of Rules specially carved to suit the practical requirements of the industry; compiled with years of shipbuilding experience together with trade considerations. IRClass Rules for Inland Waterways and Coastal Ships are an outcome of a combination of both and are implemented through our experienced Surveyors who assist you in better understanding and applying them.

IRClass undertakes the classification of inland and coastal vessels, including dredgers Ro-Pax, ferries, tugs, cargo vessels and other utility crafts operating in the rivers, estuaries and also along the coast. Apart from freight sector, IRClass provides services to tourism, defence, dredging and other infrastructure sectors.

New Construction

- Approval of plans
- Surveys at the yard
- Inspection of machinery and components
- Witnessing tests & trials

Existing Ships

- Design Appraisal
- Periodical survey and certification
- Transfer of Class / Flag Survey

Statutory Service

- Statutory design appraisal followed by Surveys and Certification.

Survey and Certification of vessels:

In India

- o River Sea Vessels
- o Indian Coastal Vessels and
- o Inland Vessels
- o Local Government rules when authorised in other countries.

Specification services

IRClass offers specification services to prospective ship owners, to assist them from concept/basic design stage to delivery, ensuring that their business needs are met. Our clientele includes Inland Waterways Authority of India, Dredging Corporation of India, Paramilitary forces and Ports.

IRCLASS ACADEMY

YOUR PARTNER IN MARITIME PROFESSIONAL DEVELOPMENT

We deliver customised training solutions in highly specialised area that focus on:

- Corporates and organisations seeking to upgrade on-job performance of their employees
 - Individuals aiming to enhance their competencies as a part of their professional development
- Our flexible training solutions for Maritime Sector address following segments:

- 1) Ship operations
- 2) Ship Design & Shipbuilding
- 3) Ports & Terminals
- 4) Ship Recycling
- 5) Maritime Management Systems

Ship operations

Port State Control (PSC) and Flag State Inspections (FSI)
Executive Management Course in Ship Superintendency
Ship Surveys & Certificates: Class and Statutory
Commercial Aspects of Shipping
Hull Surveys of Bulk Carriers & Oil Tankers
Managing dry-docking
Workshop: Techno-commercial aspects in Shipping
Role of Flag State
Complying with Maritime Labour Convention (MLC 2006)
Complying with Ballast Water Management (BWM) Convention
Ship Energy Efficiency Management Plan (SEEMP)
Marine Insurance (H&M, P&I, Cargo Claims)
Maritime Cyber Risk Management
Maritime Risk Assessment & Incident Investigation

Ship Design & Shipbuilding

Energy Efficiency Design Index (EEDI)
Propulsion System Integration (PSI)
Class requirements in design & construction of ships
Quality Assurance Plan (QAP) for shipbuilding
Welding Procedure Specification (WPS) for shipbuilding
Shipbuilding Supervision on behalf of Ship Owner
Safe work practices in shipbuilding & ship repairs
Welding processes & control of distortion in shipbuilding
Non-destructive Examination (NDE) in shipbuilding
Quality checks & inspections in Naval/Coast-guard shipbuilding

Ports & Terminals

Condition Assessment of Port or Terminal Assets
Single Buoy Mooring & Crude Oil Terminal Operations
LNG Terminal Operations

Ship Recycling

Hong Kong Convention on Ship Recycling
HSE Training of personnel engaged in ship recycling
ISO 30000:2009 Ship Recycling Management System

Maritime Management Systems

ISM-ISPS-MLC Awareness
ISM Internal Auditor Course
Designated Person Ashore (DPA)
Company Security Officer (CSO)
Port Facility Security Officer (PFSO)
Ship Security Officer (SSO)

QMS 9001:2015: Internal Auditor
QMS 9001:2015: Lead Auditor Course (NBQP Approved)
EMS 14001:2015: Internal Auditor Course
EMS 14001:2015: Lead Auditor Training (NBQP Approved)
ISO / IEC 27001 ISMS Awareness Course
ISO / IEC 27001 ISMS Internal Auditor Course
Integrated Management System: Awareness Course
Integrated Management System: Internal Auditor Course
OHSAS 18001: 2007 Awareness Course
OHSAS 18001: 2007 Internal Auditor Course
OHSAS 18001: 2007 Lead Auditor Course (NBQP & IRCA Approved)
ISO 28001:2007 Security Management for Supply Chain:
Internal Auditor Course
Lean Manufacturing
Media Handling for the Maritime & Offshore Sectors

In case you would like us to customise our training programmes or want us to develop training solutions to exclusively meet your specific requirements, please let us know:

For any queries, please contact us at

Phone: +91 22 30519400 / 71199400
E-mail: academy@irclass.org

For accessing the Training Catalogue, the latest course schedule and fee details, please contact us or visit our website:
www.irclass.org/academy

MARINE TECHNICAL SERVICES

IRClass' Marine Technical Services ensures smooth sailing of our client's business through proactive assistance in identification and elimination of constraints.

- Condition Assessment and Improvement
- Marine & Industrial Project Management
- Comfort for Seafarers
- Advice, Training and Assessment
- Measurement, Evaluation and Solution
- Fatigue Life Calculation

Services provided by IRClass Marine Technical Services Assessment & Certification

- CAP - Condition Assessment of Oil tankers, LNG/Gas and bulk carriers
- Fatigue life calculation of ship
- Risk Assessment, HAZOP Study and Disaster Management Plan
- Safety Audit / Navigation Risk Assessment
- Ship Energy Audit
- Condition Assessment of Port Assets

Test, Measurement & Analysis

- Noise Survey with compliance to IMO Resolution MSC 337(91)

- Vibration Measurement and evaluation towards comfort of seafarers•
Provide solutions to reduce excessive Noise and Vibration
- Prediction of Noise and Vibration on board ship at design stage
- Load & Draft Measurement (LDM) system verification for dredger
- Condition Monitoring of the machinery
- Thermographic Analysis of machinery and structures
- Strain measurement and evaluation of structural stresses
- Engine Power measurement

Consultancy Services

- Specification Survey
- Port Performance Audit

For any queries, please contact us at

Phone: +91 22 30519400 / 71199400

Email: mas@irclass.org

INDUSTRIAL SERVICES

Industrial Services, a division of IRClass Systems & Solutions Pvt. Ltd., provides Third/ Second Party Inspection, Safety and other comprehensive range of technical services to a wide spectrum of industries.

A rich experience in the maritime industry has equipped IRClass with expertise in diverse engineering domains. IRClass has effectively applied this knowledge to service the industrial sector.

Business Sectors

- Oil & Gas
- Buildings
- Infrastructure
- Power
- Ports & Airports
- Material Handling
- Chemicals, Fertilizers and other process industries
- Defence
- General Engineering

Services

- Project Management Assistance
- Third Party/ Second Party Inspection and Certification
- Supplier Technical Assessment and Expediting
- Preparation of DPR for Road Projects
- Quantity verification
- Construction site safety audits
- Technical Audits

- Fire and Safety Audits
- Independent Engineer
- Risk Assessment
- Design Review
- Condition Assessment
- Time and Motion Study
- Technical Investigation and Failure Analysis
- Trainings - Technical & Safety

Accreditations / Certifications / Approvals

- Accredited as per ISO 17020 as Type-A inspection body by NABCB.
- ISO 9001: 2008 certified by BSI
- Authorized by Petroleum and Explosives Safety Organisation (PESO) as a "COMPETENT INSPECTOR" under PETROLEUM RULES (126 & 130) – 2002.
- Authorized by Petroleum and Explosives Safety Organisations (PESO) as a "COMPETENT INSPECTOR" under SMPV (U) RULES (13, 18 & 19) – 2006.
- Empanelled as "Third Party Inspection Agency" with ONGC, HPCL, BPCL, IOCL, CIDCO etc.

MANAGEMENT SYSTEM CERTIFICATION BODY (INDIAN REGISTER QUALITY SYSTEMS)

Indian Register Quality Systems

IRQS, a division of IRClass Systems & Solutions Private Limited, is a leading certification body providing independent management system certification to various industries like marine, ports, ship yards, manufacturing, construction, mining, power, banking, healthcare, food, hospitality, IT, steel, oil & gas, cement, chemicals, mines, constructions, education, government and service organisations by means of independent 3rd party audits with the help of qualified and competent resources.

IRQS is the First Certification Body in Asia to have received the Raad voor Accreditatie (RvA, Netherlands) accreditation in February 1993. Under RvA, IRQS is accredited for ISO 9001(QMS), ISO 14001(EMS), OHSAS 18001, ISO 22000 (FSMS) and ISO 27001 (ISMS). IRQS is also accredited from other renowned international accreditation bodies viz.

- National Accreditation Board for Certification Bodies (NABCB) for ISO 9001, ISO 14001, ISO 22000, OHSAS 18001, ISO 27001 & ISO 50001 (EnMS)
- International Automotive Task Force (IATF) for IATF 16949 (earlier known as ISO/TS 16949) Certification for Automotive Sector
- ANSI-ASQ National Accreditation Board (ANAB), U.S, for ISO 50001 (EnMS)
- International Register of Certificated Auditors(IRCA) for Lead Auditor Courses
- National Board for Quality Promotion (NBQP) & Recognised by Registrar Accreditation Board & Quality Society of Australasia (RABQSA) for Lead Auditor Courses – ISO 9001, ISO 14001, OHSAS 18001 & ISO 22000

- IRClass has got PCI DSS QSA License (Payment Card Industry Data Security Standard Qualified Security Assessor) from PCI SSC (Payment Card Industry Security Standards Council, United States) for APAC (Asia Pacific) and CEMEA (Central Europe Middle East & Africa) Region
- Under NABCB, IRQS is one among the few organisations to provide product certification under AYUSH scheme. This includes standard and premium mark certification for Ayurvedic products/medicines, Homeopathic, Siddha & Unani medicines
- IRQS is also recognised by APEDA as one of the agency for HACCP Certification
- ISO 50001 – Energy Management System
- ISO 28000 – Supply Chain Management
- ISO 30000- Ship Recycling Management System
- IATF/TS 16949 – Technical Specification for Automotive Supply Chain
- Integrated Management System(IMS)
- 2nd part audits including supplier audits, hygiene and verification audits
- ZED Assessment (Zero Defect Zero Effect)
- Other customised certifications against various ISO standards

Apart from certifications, IRQS also provide training services against various ISO standards. The training courses provided by IRQS include:

- Lead Auditor Training Programs
- Internal Auditor Training Programs
- Awareness cum Implementation Training Programs
- Total Quality Management
- Lean Management
- 5S, Six Sigma
- Other training programs

The various standards under which IRQS provides certification and training includes:

- ISO 9001 – Quality Management System
- ISO 14001 – Environmental Management System
- OHSAS 18001 – Operational Health and Safety Management System
- ISO 27001- Information Security Management System
- ISO 20000 – IT service Management
- ISO 31000 – Risk Management
- ISO 22000 – Food Safety Management System
- FSSC 22000 – Food Safety System Certification (GFSI benchmarked scheme)
- HACCP & GMP certification
- FSSAI schedule IV compliance audits
- Food Safety Training and Certification (FoSTaC)

In ship recycling IRQS has got the following expertise & competency:

- Hong Kong International Convention (HKC) Compliance Certificate
- Independent Verifier European Union (EU) Compliance Audit and Implementation
- IHM – Inventory of Hazardous Material
- Ship Recycling Plan Preparation and Approval
- Quality Assurance
- Ship Recycling Process Witness
- Single Voyage Certification for Ships
- Health & Safety Audit
- Environment Impact Assessment
- Support to testing and other services
- Equipment/Component Fitness Inspection

Under IT (Information Technology) Certification and Training IRQS can offer a one stop shop solution by becoming a partner for certification as well as providing technical services as under:

- IT Security Audit Services (Application Security, Network Security, Data Security, Server Security, Database Security)
- IT Compliance Audits with regards to Guideline from Regulatory Bodies in India
- SCADA /PLC Security Audit Services
- PCI DSS (Payment Card Industry Data Security Standard) Gap Assessment Audits
- Vulnerability Assessment / Penetration Testing Audit Services (VAPT Assessment)

- ISO 27001:2013 Information Security Management System Audit Services
- ISO 27017:2015 code of practice for Information Security controls for Cloud Services
- ISO 27015:2012 Information Security Management guidelines for financial services
- ISO 27032:2012 guidelines for Cyber Security
- ISO 20000-1:2011 IT - Service Management System
- ISO 22301:2012 Societal Security - Business Continuity Management Systems
- ISO/IEC 23026:2015 - Systems and software engineering -- Engineering and management of websites for systems, software, and services information
- ISO 31000:2009 Risk Management
- Log Analysis, Malware and Network Analysis and many more
