ShipInspect" is designed to enable the identification of defects and potential issues through detailed inspections. Pre-purchase inspections are a key responsibility, requiring expertise to identify non-obvious issues, especially when machinery cannot be opened. Routine inspections are vital for all stakeholders, ensuring maintenance, trust, budgeting, and compliance. In short, the value of comprehensive inspections is immense.

Topics

- Objective of inspection
- Pre-purchase inspection (superficial / Caveat Emptor)
- Routine inspection
- Understanding Vessel Strength: Global & Local
