

HALF DAY TRAINING ON IMPLEMENTATION OF EEXI AND CII

COURSE OBJECTIVES To enable the participants to help participants in preparing their fleet for the upcoming latest MARPOL requirements, contributing towards GHG compliance and the actions required to achieve compliance in a timely manner.

ABOUT THE COURSE An excellent opportunity to directly learn from the experts involved in development and monitoring of latest IMO amendments to MARPOL Annex VI, introducing mandatory goal-based technical and operational measures to reduce carbon intensity of international shipping. These measures will cover both technical and operational means. The training will enable the participants to prepare the fleet to comply with amendments entering into force in November 2022.

PARTICIPANTS The entry standards are one having knowledge in the maritime operations and /or a mariner and interested to develop skills in goal based technical and operational measures

DURATION Half day

KEY TOPICS

- The Energy Efficiency Existing Ship Index (EEXI)
- Carbon Intensity Indicator (CII) rating scheme.
