

Alternative Dispute Resolution (ADR) Strategies for Marine and Offshore Contracts - Winning Without Litigation

WEBINAR OBJECTIVES

Disputes are inevitable in marine and offshore projects—but costly litigation does not have to be. The objective of this webinar is to learn how ADR can resolve disputes faster, significantly reduce costs, prevent project delays, and preserve valuable commercial relationships.

ABOUT THE WEBINAR

This webinar provides participants with a comprehensive understanding of ADR strategies applicable to marine and offshore contracts, with a practical focus on negotiation, mediation, conciliation, adjudication, expert determination, and arbitration. Through industry-specific case studies and real-world contractual scenarios, participants will learn how to identify potential disputes at an early stage, manage contractual risks, preserve commercial relationships, and select the most appropriate dispute resolution mechanism. By the end of the webinar, participants will be equipped with practical knowledge and strategic insights to resolve disputes effectively, minimise legal exposure, and achieve successful commercial outcomes—winning without litigation.

PARTICIPANTS

It is suitable for Shipowners, Charterers and Operators, EPC Contractors and Project Managers, Contracts and Claims Professionals, Procurement and Commercial Managers, Marine Insurance and P&I Professionals, Arbitrators, Mediators and ADR Practitioners, Port Authorities and Shipping Professionals, Corporate Legal Counsel and General Counsel, Maritime and Offshore Lawyers and Energy and Infrastructure Executives.
